**DR.DENTISTE'S dental academy** is an academy that focuses on teaching the DOCTOR about ENGINEERING of teeth so that he/she can work like an ARTIST and thus a DENTIST is created.

Our strong focus is on developing skills and knowledge in the different branches of dentistry along with incorporating modern advances in technology into today's clinical practice.

### **COURSE OBJECTIVE:-**

- ψ Enhance knowledge of basic science essential to understand the art of cosmetic dentistry.
- ψ Improve the clinical skills of the dentist with a focus on broad spectrum of modern aesthetic treatment methods.
- ψ This programme is specially designed to improve the skills in endodontics.
- ψ This course focus on a particular system in cleaning and shaping and it also gives a complete knowledge about pulp space and its therapy.

**Dr. Dentiste**
