DR.DENTISTE'S dental academy is an academy that focuses on teaching the DOCTOR about ENGINEERING of teeth so that he/she can work like an ARTIST and thus a DENTIST is created.

Our strong focus is on developing skills and knowledge in the different branches of dentistry along with incorporating modern advances in technology into today's clinical practice.

COURSE OBJECTIVE:-

- ψ The main objective of the course is to enhance the basic knowledge and skills in the dentistry.
- ψ With increasing demands of the patient and day to day increasing competition in the field of dentistry one has to be well skilled in all the necessary dental procedures. This course is directed towards the same.
- ψ It covers from basic of dentistry to the latest technology available with latest materials and latest technique.
- ψ This course will make you able to stand with the leading practitioners with confidence.

"you are never fully dressed without a smile"
